

BLC

BRONX
LOGISTICS
CENTER

The background is a dark blue gradient with large, flowing, organic shapes in a lighter blue. A small silhouette of a person wearing a hard hat stands on a curved surface, looking out over a bright, glowing horizon. The overall mood is futuristic and innovative.

NEXT-LEVEL
LOGISTICS

A NEW SPEC STANDARD FOR NYC INDUSTRIAL DEVELOPMENT

At 1.3M SF, Bronx Logistics Center is not only the largest but the most thoughtfully-designed industrial development in New York City. The project offers two market-leading, 250K SF warehouse floors, accessed nearly 800 feet from one another through separate, exclusive entrances on E 149 St, and the single largest availability of parking in the market.

The project is a five-minute drive from Manhattan's Upper East Side, with the rest of New York City, Westchester, and Long Island within a 20-minute drive. Bronx Logistics Center provides tenants with unmatched access to the nation's largest city in a Class A building with market-leading specifications across the board.
